

## General Office, Medical Office, Billing and Coding 9 Months

### Program Information:

The order and duration of each topic can be adjusted to meet the needs of each individual student. The program is designed to work at the student's pace, allowing them to master the content at a speed that is comfortable for them. The one-on-one instruction during the student's scheduled class time provides an individualized approach to learning, allowing for tailored support and attention. This approach helps to ensure that students can effectively develop the skills and knowledge they need to succeed in their chosen career path.

### MS Office:

The Microsoft Office Suite training program focuses on the essential tools used in the business world. Students will learn Word, Excel, PowerPoint, Access, and Outlook, starting with the basics and advancing to more complex concepts. The objective of the course is to equip students with the necessary skills and knowledge to effectively use these programs and increase their job prospects in the market.

### Keyboarding/Ten Key:

The training program involves daily keyboarding practice and occasional 10-key practice. The typing goals for the course are 35 words per minute and 130 characters per minute.

### Customer Service:

The course teaches students how to assist customers with inquiries and problems in call centers, help desks, tele service centers, and online. It covers topics such as user interfaces and behavior, hardware and software systems, customer interaction skills, telephone and email communication, data entry, and database and internet search and retrieval. The aim is to provide students with the skills to effectively assist customers in a frontline customer service role.

### Job Search:

The Job Preparation Service includes creating resumes and cover letters, finding job leads, applying, and interviewing for work, using the skills and resources obtained during the training program.

### Medical Office, Billing and Coding:

The Medical clerical course covers basic medical terminology with daily quizzes, medical billing by completing HCVA-1500 forms on the computer. Upon completion, the student should have a good understanding of basic medical terminology, proficiency in using coding books and online resources to look up codes, and the ability to accurately fill out HCVA-1500 billing forms.

### Cost:

**Equipment Provided by Office Careers:**

The cost of training plans includes the essential equipment needed for remote or onsite classes. Laptops provided by Office Careers are pre-configured for online communication and remote access, and students may also be able to use their own laptops if they sign an agreement with the company. The company provides backups and safety features to minimize the loss of class days due to technical issues, and can provide secondary monitors, wireless keyboard and mouse, and ergonomic devices if needed. If necessary, Office Careers will arrange for internet service, including paying the student for service in their home, with the exception of satellite internet which may have additional fees.
